MANUFACTURERS and dealers in tobacco, snuff and cigars who make claims for rebate of tax on the stock that may be on hand May 1st 1883, will be required, when taking an invoice of the stock on hand on that day, to affix a label to each stamped package of tobacco or snuff of one pound or more in weight; to each box containing stamped packages of tobacco or snuff less than one pound in weight; to each stamped package of cigars, and to each box containing stamped packages of cigars.

Says the Harrodsburg (Pa.) Patriot: The working classes are beginning to understand the flagrant imposture practiced in their name and under the pretense of advancing their interests. They have learned in the school of experience that they are not protected against the competition of foreign laborers by high duties on the products of their labor. The "Window-Glass Workers' Association of the United States," for instance, is preparing a bill to be introduced in the next Congress prohibiting the importation of working men into this country under contract to work for certain wages for a given length of time.

The proposition of the Window-Glass Workers is based precisely on the same principle as that of a high protective tariff. It is intended to shut out foreign competition. The only difference between the tariff and a law prohibiting the importation of wage-workers under contract is that the former is meant to enrich the employer and the latter to protect domestic labor. If, therefore, the protectionists are sincere in their much vaunted purposes of protecting American labor they will hasten to support this proposed tariff on the muscle, brawn and brain of other countries.

The Grain Market.

The Philadelphia Press says: India has already lowered the price of grain in the world's market and cut off from 10 to 20 per cent. at least, of the profits of the Western farmer. Wheat sells in the interior for eighteen cents a bushel, about one-third to one-fourth the cost of raising it in Dakota, and high freight charges to the sea-coast are all that prevent this grain from hopelessly underselling ours, as water carriage is only six or eight cents a bushel more from Calcutta to New York. As India has 20,000,000 acres on which wheat is grown—a surface one-half as large as that now sowed down in this country—yielding 24,000,000 bushels, and as much more which can be put under the plow, all the needs of England can be supplied by her. All that is needed is English capital to build railroads. It is not surprising, under these circumstances, that a government loan of \$250,000,000 for this purpose is strongly urged in India and England as the simplest and most direct way of making England independent of any other power for its food supply. Such a change would work as sudden changes in our domestic agriculture as the development of steam and machinery in England did in our domestic manufactures forty years ago.

A Strange, Strong Letter.

Covington Commonwealth.
[The following letter was evidently written by a father to a son of dissipated habits.]

"My dear son: What would you think of yourself if you should come to our bedside every night, and wakening us, tell us that you would not allow us to sleep any more? That is just what you are doing; and that is just why I am up here a little after midnight writing to you. Your mother is nearly worn out with turning from side to side, and with sighing because you won't let her sleep. That mother, who nursed you in your infancy, toiled for you in your childhood, and looked with pride and joy upon you as you were growing up to manhood, as she counted on the comfort and support you would give her in her declining years.

"We read of a most barbarous manner in which one of the Oriental nations punishes some of its criminals. It is by cutting the flesh from the body in small pieces—slowly cutting off the limbs, beginning with the fingers and toes, one joint at a time, till the wretched victim dies. That is just what you are doing, you are killing your mother by inches. You have planted many of the white hairs that are appearing so thickly in her head before the time. Your cruel hand is drawing the lines of sorrow on her dear face, making her look prematurely old. You might as well stick your knife into her body every time you come near her, for your conduct is stabbing her to the heart. You might as well bring her coffin and force her into it, for you are pressing her towards it with very rapid steps.

Would you tread on her body if prostrated on the floor? And yet with ungrateful foot you are treading on her heart and crushing out its life and joy—no, I needn't say "joy," for that is a word we have long ceased to use, because you have taken it away from us. Of course we have to meet our friends with smiles, but they little know of the bitterness within. You have taken all the roses out of your sister's pathway and scattered thorns instead and from the pain they inflict scalding tears are often coursing down her cheeks. Thus you are blighting her life as well as ours.

And what can you promise yourself for the future? Look at the miserable, bloated, ragged wretches, whom you meet every day on the streets, and see in them an exact picture of what you are fast coming to, and will be in a few years. Then in the end a drunkard's grave and a drunkard's doom! For the Bible says, "No drunkard shall inherit the kingdom of God." Where, then, will you be? If not in the kingdom of God you must be somewhere else.

Will not these considerations induce you to quit at once, and for all time, and may God help you, for He can and He will, if you earnestly ask Him? Your affectionate, but sorrow stricken father.

For and About Women

Vermont has two women acting as mail carriers.

Cincinnati boasts that there is a young lady in that city with a full beard.

It is pleasant to read something to Mrs. Langtry's credit. She gave \$5 to a hungry woman in a Rochester railroad station.

Mrs. J. Ellen Foster, of Iowa, is delivering temperance lectures in Florida, where the prohibition movement, in the shape of local option, is gaining amazingly.

A four-year-old fragment of humanity strayed into the kitchen washing day and then went up stairs and asked her mamma what Bridget was "cooking the clothes" for.

Mrs. Mary Ann Threntine, a twin sister of Senator Hill's mother, is still living, aged about eighty-five. Her home is in Harris, Ga. She gave the Senator the name of her first husband, Benjamin Harvey.

The women in the departments at Washington mostly belong to the low salaried classes, but many of them, whose efficiency has been demonstrated by long service, except that the Civil Service Com-

mission will give them chances for promotion, which they have never hitherto enjoyed.

The Empress of Russia never wears any fur but sable; the Empress of Austria-Hungary confines herself to astrakhan; her daughter-in-law, Prince Rudolph's wife, will have nothing but otter; the Queen of Holland wears only marten, the Queen of Romania, chinchilla, and the Queen of Spain, beaver. Seal-skin appears to be scorned of royalty.

One recent morning Kate Slocum, a pretty Florida girl, stood at the door of her father's house watching sun just peeping above the tree tops. Paddy, the gardener, came whistling along the road at that moment, and as he was passing a cloud for a moment obscured the orb of day. "Sure," said Pat, with a bow and a smile as he lifted his hat, "when the sun beysant caught sight of your eyes he was ashamed and hid himself away." Did any gallant ever say a prettier thing?

THE DAILY BULLETIN.

WEDNESDAY EVE., APRIL 11, 1883.

Now jury-men the boys will ask
To tell 'em so and so,
And wide they'll stretch their eyes to hear
How little that they know,
Exactly where the tiger walks,
His dally bread to earn,
Is something that the jury-men
Can't sometimes always learn.

Since the murder of the Gibbons children at Ashland, Ky., it has been maintained by Enreka detectives here that two negroes are guilty of the murder. One of the other has been followed up until the detectives have located one negro. Strong affidavits have been secured in this city pointing directly to a negro who is still at large. His whereabouts are known, and next week he will be arrested and brought to this city. The rumor that he was in our jail is false.
